

Mar. 6, 1928.

Mr. S. E. Johnson,
Hanksville, Utah.

Dear Sir;

RE: BOWL CREEK DIST.

I am in receipt of a petition asking that you be appointed water commissioner for the coming season on Bowl Creek. This will require several trips to make sure that the two principal diversions from Bowl Creek are keeping within proper limits.

The petition sets out that you are willing to accept \$5.00 per day and mileage at 12 cents a mile for this work and I would be pleased to hear if this is correct and whether or not you are willing to accept the appointment should I decide that it is necessary.

Yours very truly,

State Engineer.
